

# A Community Hub for Learning & Connection

## Non-Profit Spotlight

### Pottstown Regional Public Library

The Pottstown Regional Public Library is a welcoming community hub where residents of all ages can learn, connect, and find support. Patrons have free access to books, digital resources, public computers, Wi-Fi, and educational programs that support learning at every stage of life. Families and students rely on the library for early literacy activities, story times, homework help, and quiet study spaces. Adults use the library's materials and workshops for job searching, resume building, financial planning, health information, and lifelong learning. Programs such as book clubs, crafting sessions, teen activities, and special events encourage creativity, reduce isolation, and foster a strong sense of community.

The library has earned **Gold Star status in the PA Forward Star Program**, the highest level a library can achieve. This recognition means the library consistently offers strong programs and services that build key skills in reading, information

use, civic engagement, health, and financial decision making. For the community, the Gold Star signals a trusted, high quality library that is deeply committed to helping residents learn, thrive, and fully participate in daily life. The library is also dedicated to serving multilingual and diverse communities and remains a safe, inclusive space where everyone can feel respected, informed, and connected to the wider Pottstown area.

Through its **Wellness on Our Minds initiative**, the library focused on promoting equitable community health, encouraging mental wellness, and improving access to important information. This project expanded the collection with **more than 180 new books** centered on mental and physical health, meeting a clear and growing need among patrons. The initiative also included a Mental Health and Wellness Festival, wellness kits filled with information on local services and upcoming programs, and a new Interactive Language Assistant that helps staff better serve patrons who do not speak English as their primary language.

The Pottstown Regional Community Foundation is proud to support the Pottstown Regional Public Library as a valued community partner. This partnership helps ensure continued access to health and wellness information, educational tools, and uplifting resources that benefit the entire Pottstown region.
